- **Children's Trauma Therapy Service**

The Children's Trauma Therapy Service, at Bradford Family Action, is a specialist therapy service providing trauma and attachment focussed therapy for children and their families in Bradford District. We work to help children and their families recover from traumatic experiences including abuse (sexual, emotional, physical, domestic and neglect) and traumatic bereavement. We specialise in working with developmental and complex trauma. We aim to help children and families to understand their responses to these traumas, and make sense of the impact on their relationships, as they work towards recovery rather than being diagnosis focused.
