

September 2022

Dear Families

As you know, this year is an incredibly important one for our Year 11 students. They must complete revision, as well as their set homework, every week in order to be successful. In school, we will do everything we can to put them in the best possible position when they begin their examinations in the summer. The mock examination series, beginning on 14 November, will be an opportunity for students to show how much progress they have made since they were in Year 10. The results of these will be submitted on sixth form and college applications.

In light of this, we will be running an after school revision club, where students will be supported by a member of SLT to complete independent revision. This will be a small group of students and refreshments will be provided. This will run on Mondays and Wednesdays from the end of the school day until 5.30pm.

Thank you in advance for your support.

Yours sincerely

**Emma Steele**  
**Principal**
