

Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2022 to 2023 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

Part A: Pupil premium strategy plan

Statement of intent

How are we spending the PPG?

The academy draws on research evidence (such as the Sutton Trust toolkit – see Appendix 2) and evidence from our own experience to allocate funding to activities that are most likely to maximise achievement. We never confuse eligibility for the Pupil Premium with low ability, and focus on supporting our disadvantaged students to achieve the highest levels. Our Pupil Premium spend is divided into the following four priority areas:

Quality first teaching and harnessing the power of feedback

We understand the importance of ensuring that all teaching meets the needs of each learner, rather than relying on interventions to compensate. Therefore, we develop teacher talent by investing in practice and coaching. We practise key techniques collectively as a staff twice every week during morning meetings. Further to this, we engineer tailored practice during weekly one-to-one coaching sessions with all teaching staff. The best way to ensure students make progress is to harness the power of feedback. Each day has feedback time built into it when the class teacher is able to work with children either one-to-one or in small groups with the aim that no child goes home with a misconception. There are student appraisals every cycle and every half term parents receive a personalised report, a face-to-face meeting or a telephone call home. At every morning meeting, after every lunch, at every line-up and afternoon meeting, we reflect back on how the day has gone and the key highlights in learning. Each week we recognise students who have displayed the value and worked exceptionally hard each week through staff appreciations. Further to this, we incorporate parent workshops on a regular basis to further enhance the quality of the feedback process and parents' knowledge and understanding of school and the curriculum.

Highly tailored interventions and more time

We find out where the basic skills gaps exist among eligible students as soon as they arrive in Year 7, and deploy our best teachers to help close these gaps. We double staff, at least, one class in each of the core subjects in each year group throughout the week: the second teacher usually works with the currently lower attaining students, but can also be deployed to support students to challenge the currently higher attaining students. In addition to our lessons, we run five half hour morning meetings, five half hour reading sessions mid-morning, and two hours of electives in sport and the arts per year group over the course of the week. Year 11 students also have a dedicated Preparatory session which are used for highly tailored

intervention and revision of key learning. A number of students are also expected to attend morning mastery from 7.30am.

Minimising barriers to achievement

We have thought carefully about what barriers to learning our students are experiencing, and how to remove or, at least, minimise them. For example, we have employed mountain rescue mentors and co-teachers to provide well-targeted support to improve attendance, behaviour, social and emotional wellbeing or links with families where these are barriers to a student's learning. We insist on good learning habits with the highest of expectations and no excuses. We have very clear rules about homework and equipment because students have to be ready to learn. Our uniform is very professional and offers students elements of choice, but students are expected to wear it with pride and there is a strong attention to detail. During lessons, students are expected to track the speaker, teacher or student, and remain focused at all times.

Keeping aspirations on track and broadening experiences

Over 50% of our students live in the five most deprived wards in Bradford, one of the UK's most significant areas of socio-economic challenge. Our priority is to raise aspirations, encourage young people to have a growth mind-set, and to progress on to higher education. The message at Trinity is that ALL students are going to university. We continuously expose students to university. Before they join, Year 6 students visit the University of Leeds so their first experience with Dixons Trinity is at a Russell Group university. In Year 8, every student visits Oxford University as part of a 4-day camp and then the University of York in Year 9. Like many independent schools, we devote a significant amount of time to all-round development, especially in the sports and the arts.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	In-school on entry attainment gaps in English and mathematics (Avg of Dixons MAT Baseline / Scaled Score gaps: Y7 = -9, Y8 = -7, Y9 = -1, Y10 = 0, Y11 = - 2).
2	Disadvantaged students often start at Dixons Trinity Academy with less understanding of their aspirations and how to achieve them.
3	Ensuring disadvantaged students develop and maintain strong learning habits.
4	Attendance and persistent absenteeism of disadvantaged students.

5	Building strong relationships with families can be more complex.
6	There is evidence to suggest disadvantaged students have been disproportionately affected by the pandemic.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
The progress and attainment of low prior attaining disadvantaged students, at least, matches or is improving towards that for other low prior attaining students within school.	At KS3, the Progress Score gap in English and maths for low prior attaining disadvantaged students is positive. At KS4, the Progress 8 score / Attainment 8 score for low prior attaining disadvantaged students, at least, matches or is improving towards that for other low prior attaining students nationally.
The progress and attainment of middle prior attaining disadvantaged students, at least, matches or is improving towards that for other middle prior attaining students within school.	At KS3, the Progress Score gap in English and maths for middle prior attaining disadvantaged students is positive. At KS4, the Progress 8 score / Attainment 8 score for middle prior attaining disadvantaged students, at least, matches or is improving towards that for other low prior attaining students nationally.
The progress and attainment of high prior attaining disadvantaged students, at least, matches or is improving towards that for other high prior attaining students within school.	At KS3, the Progress Score gap in English and maths for high prior attaining disadvantaged students is positive. At KS4, the Progress 8 score / Attainment 8 score for high prior attaining disadvantaged students, at least, matches or is improving towards that for other low prior attaining students nationally.
Disadvantaged students have at least as much learning time as other students.	The attendance of disadvantaged students, at least, matches that for other students nationally.
Disadvantaged students are supported by our behaviour system.	The average number of corrections for disadvantaged students is no higher than 1 per student, per week.
All disadvantaged students access a broad and balanced curriculum, building their cultural capital.	All disadvantaged students participate in, at least, 1 co-curricular session each and every week.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year.

Due to COVID-19, performance measures have not been published for 2020 to 2021, and 2020 to 2021 results will not be used to hold schools to account. Given this, please point to any other pupil evaluations undertaken during the 2020 to 2021 academic year, for example, standardised teacher administered tests or diagnostic assessments such as rubrics or scales.

If last year marked the end of a previous pupil premium strategy plan, what is your assessment of how successfully the intended outcomes of that plan were met?

Students are provided with excellent wave one teaching and high quality feedback. Progress of disadvantaged in English, mathematics, science, history, geography and Spanish is strong and above that of 'other'. On average, disadvantaged students make much stronger progress than the national average.

Class of 2025:

- The Attainment 8 score for disadvantaged students is 47.42. This was slightly behind other students (55.80 for all) in the academy but well above the national average (34.9).
- The Progress 8 score for disadvantaged students is 0.43. This was slightly behind other students (0.76 for all) in the academy but well above the national average (-0.57).
- The English APS was 5.52 for disadvantaged students. This was slightly behind other students (6.27 for all) in the academy but well above the national average.
- The English Progress 8 score was 0.73 for disadvantaged students. This was slightly behind other students (1.23 for all) in the academy but well above the national average.
- The Mathematics APS was 4.52 for disadvantaged students. This was slightly behind with other students (5.08 for all) in the academy but above the national average.
- The Mathematics Progress 8 score was 0.15 for disadvantaged students. This was behind other students (0.45 for all) in the academy and but above the national average.
- The percentage of disadvantaged students achieving the strong pass (5+) in the Ebacc was 21.2%. This was behind other students (28.9% for all) in the academy but was above the national average.

Class of 2025

- The gap in attainment between disadvantaged students and other is -8.38.
- The gap in progress between disadvantaged students and other is -0.47.

Class of 2026

- The gap in attainment between disadvantaged students and other is -5.73.
- The gap in progress between disadvantaged students and other is -0.19.

Class of 2027 Year 10

- The gap in attainment between disadvantaged students and other is -14.2.

Class of 2028 Year 9

- The gap in attainment between disadvantaged students and other is -8.1.

Class of 2028 Year 8

- The gap in attainment between disadvantaged students and other is -1.8.

100% of teachers / co-teachers performing at least in-line with professional stage due to CPD and feedback.

Prep is firmly embedded as effective interventions that target and reduce gaps.

Robust attendance procedures have been refined meaning our attendance figures remain above national (9.4% absence for disadvantaged students – disadvantaged students nationally, prior to the pandemic, had a percentage absence of 34.1%).

Mountain Rescue, homework club and Dream Team have all ensured barriers are minimised for students by providing timely interventions resulting in low corrections (less than 0.5 on average per week).

100% of students have been involved in whole year group DEAR and the reading culture in the school is strong.

Due to Covid, some of our usual expeditions have been rescheduled. All students will still attend the same number of expeditions and visit the same number of high quality universities. The school budget reflects this; no child will miss an expedition for hardship reasons.

100% of students in years 7-10 took part in Co-Curricular Electives and 100% of students in years 7 and 8 presented their Stretch speeches.

Priorities for 2019-22

Our key drivers of mastery, autonomy and purpose¹ underpin our priorities for 2019-22:

1. **Mastery:** the urge to get better and better at something that matters
 - 1.1. Demonstrate outstanding progress and achievement
 - 1.2. Ensure learning is rigorous*, engaging and underpinned by meaningful feedback
 - 1.3. Embed a rich and exciting curriculum that embodies the laws of mastery; flow, pain and growth
2. **Autonomy:** the desire to direct our own lives
 - 2.1. Propagate our disciplined and joyful school culture
 - 2.2. Develop confident and self-directed learners
 - 2.3. Cultivate effective, autonomous leaders at every level of the organisation
3. **Purpose:** the yearning to do what we do in the service of something larger than ourselves
 - 3.1. Sustain our genuine three-way partnership between families, students and staff
 - 3.2. Work with the Dixons Academies to replicate best practice and to contribute to continuous improvement
 - 3.3. Further enhance the strong reputation for Dixons Trinity Chapeltown
